

MEMORANDUM

MODULATION COEFFICIENTS APPLICABLE FROM 1st JANUARY 2011

The decree of 26 February 2009, amending the decree of 24 January 1956, lays out the conditions for establishing and collecting landing and lighting fees levied at airfields open to public air traffic.

The information presented here below was examined by Marseille-Provence Airport's Consultative & Economic Commission on 6 November 2009 and was approved jointly on 30 December 2009 by France's Ministry of the Economy, Industry and Employment and Ministry of Ecology, Energy, Sustainable Development and the Sea in charge of Green Technologies and Climate Negotiations.

The decree defines 6 distinct acoustic groups.

The modulation coefficients applicable to the acoustic groups are as follows:

	Modulation coefficients
Group 1	1.82
Group 2	1.21
Group 3	1.21
Group 4	0.84
Group 5a	0.84
Group 5b	0.84

The following coefficients will be applied to the abovementioned modulation coefficients in function of the time of day, notably incorporating an increase of 50% for landings between 10pm and 6am:

**Modulation coefficients
in function of the time of day**

Day and evening landings (6am – 10pm)	0.923
Night landings (10pm – 6am)	1.39
